## Education

VNRVJIET

Bachelor of Technology in Information Technology

Sep. 2023 – July 2027

Hyderabad, Telangana

## Relevant Coursework

- Data Structures
- Software Engineering
- Operating Systems
- Machine Learning

## Coding Profiles

- [LeetCode](#)
- [Codeforces](#)
- [HackerRank](#)
- [InterviewBit](#)

## Experience

Intern @ Swecha AI

May 2025-Jun 2025

AI Intern

Hyderabad, Telangana

- As a mentor, I guide students in building AI applications using OpenAI APIs, focusing on practical implementation and real-world applications.
- help students understand the nuances of AI development, from concept to deployment.
- Communicate with multi-disciplinary teams of engineers, designers, producers, and clients on a daily basis

Freelancer

January-2025

Fullstack developer

Hyderabad, Telangana

- have been working as a freelance developer, focusing on building web applications and providing software solutions for various clients.
- specialize in creating custom web applications, integrating APIs, and ensuring responsive design across devices.

## Projects

Sorting Visualizer [View Project](#) | *React.js, Node.js, DSA Algorithms, Express, Tailwind*

Feb 2025

- Built an AI chatbot that generates tailored interview questions based on user skills and job roles.
- Increased preparation efficiency by 80% through role-specific interview simulations.

Student Progress Management System [View Project](#) | *React, Cron.js, Tailwind, Lucide-react, Express*

June 2025

- Engineered an automated dashboard to analyze Codeforces profiles and visualize performance metrics.
- Helped 50+ students track coding progress and improve their competitive programming journey.

Chatter Box Application [View Project](#) | *React, WebSockets, Node.js, Bootstrap, Express*

March 2025

- Developed a real-time chat app supporting multi-user communication with WebSocket-based messaging.
- Implemented responsive UI using Bootstrap and ensured seamless cross-device interaction.

Techlearn-Dashboard [View Project](#) [View Code](#) | *React, MongoDB, Node.js, JWT, Tailwind CSS*

May 2025

- Created a secure role-based dashboard for workflow management with JWT-based authentication and task visibility.
- Streamlined internal communication and task tracking across user roles, improving efficiency in team operations.

## Technical Skills

Languages: Python, Java, C/C++, HTML/CSS, React, Nodejs, JavaScript, SQL

Developer Tools: VS Code, Eclipse, Google Cloud Platform, Android Studio

Technologies/Frameworks: Linux, Jenkins, GitHub, JUnit, WordPress

## Certifications & Achievements

- Linux Foundation Certified – Demonstrated proficiency in Linux system administration. [View Credential](#)
- 160 Days of Problem Solving – Completed the “160+ Days of Code” challenge by *GeeksforGeeks*. [View Credential](#)
- Top 100 in Krithomedh Club Coding Contest – Secured 50<sup>th</sup> rank in the final round at *VNRVJIET*. [View Credential](#)
- Cisco JavaScript Essentials 1 & 2 – Mastered JavaScript fundamentals including ES6+ features, asynchronous programming, and DOM manipulation. [View Credential](#)
- Webathon 2024 – Participated in a web development hackathon organized by *ACM VNRVJIET*, showcasing skills in building innovative web applications. [View Credential](#)
